

A close-up, side-profile view of a male HVAC technician wearing a grey hard hat and safety glasses. He is focused on his work, with his hands in orange work gloves. He is using a yellow and black power tool, possibly a soldering iron or a heat gun, on a complex system of pipes and wires. The background is slightly blurred, showing the white metal casing of an HVAC unit with two circular gauges. The overall scene is brightly lit, suggesting an indoor or well-lit outdoor setting.

Start Your Future NOW

HVACR

Install or repair heating, ventilation, and central air conditioning or refrigeration (HVACR) systems, including oil burners, hot-air furnaces and heating stoves.

**National Mean Salary &
Hourly Wages*:
\$57,460 salary
