

## VALUED MEMBER FEEDBACK

“Working with Chris, Terry and Carolyn has been an amazing experience so far! Their process, insight and attention to detail couldn't be better. I've accomplished so much in a short amount of time and am confident that I'll reach my goals as a result of working with them.”

“Thus far my experience with Chris and Terry has been great. We just completed the BPA and plan to start the weekly coaching sessions in the next few weeks.”

We just signed on with Small Business Growth Partners after completing our BPA as a member of the PA Builders Association. They were very patient with us as we took the time to complete the initial evaluations and completed the surveys. The DISC assessments were especially insightful. The BPA in itself showed us our weak areas (of which there are several) but also a plan of action, even if we had not signed on to their service. We're looking forward to working with their team and getting both of our companies (Studio 4 Showroom and Connor Design-Build) on track for growth!
